

NHS Commercial Alliance

Strategic Partnership

The East of England NHS Collaborative Procurement Hub joined forces with NHS Commercial Solutions to create a strategic partnership designed to step up delivery and improve services to their NHS member Trusts. This partnership is known as the NHS Commercial Alliance.

The NHS Commercial Alliance provides a greater pool of expertise and procurement support for a wider range of benefits to around 70 member Trusts located across a large area of the south and east of England. The partnership is the largest NHS procurement organisation of its kind in the country.

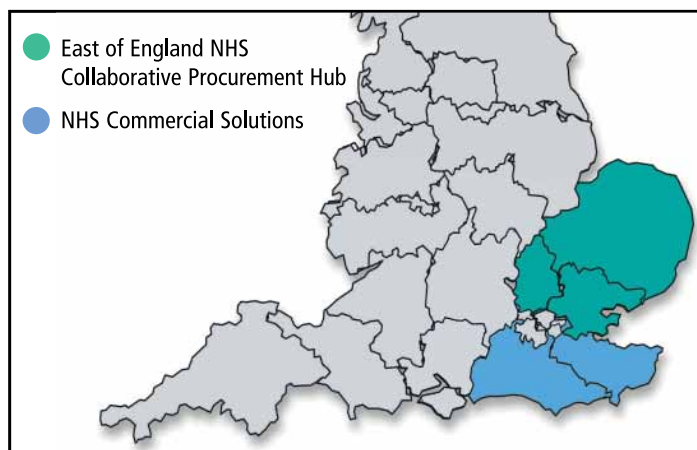

Successful Track Record

The NHS Commercial Alliance is very pro-active, especially in developing joint work plans and customer contacts. It also hosts a regular, well attended Mental Health Forum, which includes guest participants from Trusts outside the core area.

The Alliance is involved in a number of key projects which will deliver cash releasing savings and other tangible benefits to members. These include digital dictation, telecommunications, child care vouchers, surgical stapling and an award-nominated Topical Negative Pressure contract.

Business Partners

In addition to providing procurement services for its member Trusts, the NHS Commercial Alliance provides procurement support for all Ambulance Trusts across England.
